PRODUCT DESCRIPTION

Endless possibilities with Iolite multiple's functionality and architectural aesthetics. Iolite multiple recessed family consist of one to three independently adjustable heads, variety of beam distributions and multiple reflector options. Iolite multiple series is a perfect solution for most retail, hospitality and commercial applications.

FEATURES

- Trimless or Flanged appearance
- One to three head configurations
- Three optics included with each trim type (Premium TIR optics available)
- Customizable reflector options
- Housing includes individual drivers for each module
- Cree® COB or Comfort Dim technology
- Triac, ELV or 0-10V dimming

SPECIFICATION

Housing: 0.0475" Galvanized steel housing with quick connects from each driver for ease of installation. Housing accepts standard ceiling thickness up to 1-1/2" may vary depending on ceiling type (up to 1" ceiling thickness when used with NMIO-W).

Air Flow Restriction: Housing has factory installed gaskets to restrict airflow from room into ceiling plenum to <2CFM (cubic feet per minute) in accordance with ASTM-283 Air-Tight requirements.

Clearance: "IC" Insulated ceiling housings are direct contact rated; no minimum clearance is required.

Bar Hangers: Two 13-7/8" to 25" adjustable bar hangers with captive nails are included with the housing. Bar hangers are parallel to junction box, but can be repositioned 90° perpendicular to junction box if desired. "L"-shaped bar hanger foot to align to bottom of construction joist. A T-bar notch allows for easy installation in a suspended ceiling.

Junction Box: Pre-wired 40 cubic inch 0.0475" thick galvanized steel, with six 1/2" knockouts. Leads are #18AWG wire. Suitable through branch circuit wiring, 4-in, 4-out (2-in, 2-out with wall wash trim).

Trimless: Mud plate mounts inside Iolite Multiple Housing and screws into drywall to be flush. A professional drywall finisher floats the ceiling to blend in the mud plate, sands and paints. The reflectors are then inserted into the mud plate and the results are a spectacular, minimalist appearance with no flange.
